

Unit Assessment and Planning

Use your advance work with the unit profile diagnostic as a starting place for addressing the assessment questions.

- ❖ How do the problems in this unit manifest? Be as specific as possible:

- ❖ List and discuss three to five examples of interactions; seek patterns:

- ❖ How do you understand, characterize the issues in this unit?

- ❖ What metrics reflect the current challenging elements? How would you like to see those change?

- ❖ Who are the key opinion leaders in the group?

- ❖ What reinforces problems and/or what deters change in the unit?
